

InTEGReL Site Briefing Sheet

- The InTEGRel Site is an **operational high-pressure gas site** (both methane natural gas and hydrogen) and unodourised gas is present.
- The site is trafficked, and construction activities may be taking place in the vicinity of pedestrian routes and facilities.
- The site operates a **one-way system** (as shown below) with a **5mph** speed limit. All vehicles must reverse park in designated areas. Please observe site signage.
- You must declare yourself on site to the Site Manager or your NGN Representative and also **sign in and out** of site in the Lower Office (as shown below).
- The **emergency assembly point** is located at the site entrance. In the event of emergency, please follow instruction from the Site Manager or your NGN Representative. NGN will notify emergency services, as required.

- Welfare facilities are provided in both the Hydrogen Homes and main site building.
- Hi-visibility clothing and suitable footwear must be worn at all times on site.
- Smoking and direct sources of ignition including e-cigarettes are prohibited on site.
- Please remain in the company of your NGN host. The site does contain hazardous areas which require additional safety controls.
- Mobile phones must not be used in hazardous compound areas and additional PPE must also be worn in hazardous areas.

- Under 18s are not permitted on site without prior authorisation from NGN.
- If you are unsure of any site rules, speak to the Site Manager or your NGN Representative.
- Any hazards, near misses, incidents or accidents must be reported immediately to the Site Manager or your NGN Representative.
- In the event of injury, please report this to your representative who will arrange for First Aid / medical assistance.
- Please observe social distancing where possible (we will open windows and doors to allow for natural ventilation).
- The site is directly adjacent to a Site of Special Scientific Interest (SSSI) which supports species such as Red Kite and Red Squirrel. Do not disturb any wildlife or vegetation on site and report any environmental incidents or near misses immediately to the Site Manager or your NGN Representative.

Please **do not operate Hydrogen Home appliances** without authorisation from NGN.

The HyDeploy compound is a secure site and is a hazardous area. Do not enter without escort from NGN competent person and prescribed PPE.

All persons attending site are to sign below to confirm that they have read and understood the above information and instructions.
